OTHER DEVICES

eiP Maglite Keyboard

It will show "Connected" once it is connected

Bluetooth

MY DEVICES
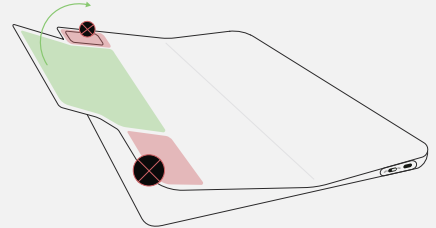

eiP Maglite Keyboard   Connected ⓘ

Way to open the keyboard:

Since the iPad relies on back magnetic attraction, when opening the keyboard, **please hold the iPad in the middle** and unfold it upwards. If unfolded from the left/right corners, it may cause an asymmetric magnetic force, please be careful.

## Language Switching (Press the "⊕" key to switch language)

Turn off "Press ⊕ for Emoji"

| Settings				
General >	Date & Time >	Keyboard >	Press ⊕ for Emoji — Turn it off	
Control Center >	Keyboard >	Hardware Keyboard >	Use ⊕ to show Emoji instead of switching language.	
Display & Brightness >	Trackpad & Mouse >		Switch Languages using Caps Lock	
		It appears only when keyboard is connected	Use the Caps Lock key to switch to and from English (US).	

** Besides pressing "⊕", you could press "Control + Spacebar" to switch language as well.
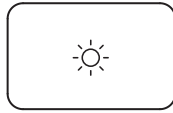

Caps Lock Setting

Due to the default setting on iPad system, Caps Lock key on the keyboard does not capitalize any letter until the setting is changed as shown below. Once **the "Switch languages using Caps Lock" is off, Caps Lock can then be used** to toggle between uppercase and lowercase letters just like on a computer keyboard.
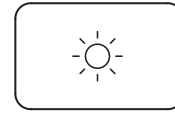

Settings				
General >	Date & Time >	Keyboard >	Press ⊕ for Emoji	
Control Center >	Keyboard >	Hardware Keyboard >	Use ⊕ to show Emoji instead of switching language.	
Display & Brightness >	Trackpad & Mouse >		Switch Languages using Caps Lock — Turn it off	
		It appears only when keyboard is connected	Use the Caps Lock key to switch to and from English (US).

eiP   Activate Stylus Shortcut

Press "Fn + eiP" to activate the stylus shortcut function.
(Red light will flash once to indicate successful activation)

※ Only for Notability/Goodnotes
※ After switching apps, you need to press "Fn + eiP" again to activate the shortcut function

Keyboard Charging Guidelines

Type-C charging port

Power

- The Maglite Keyboard Case uses a Type-C charging port. Please ensure that the input voltage does not exceed DC-5V to avoid damaging the keyboard.
- When charging, please connect the Type-C end to the keyboard and the USB end to the charger or power source for charging.
- Before the first use, it is recommended to charge for at least 3 hours before using, and thereafter, charge for at least 2 hours each time.
- Charging from 0% to 100% requires approximately 3 hours.
- If the keyboard becomes hot during charging, please stop charging immediately.
- After fully charging, please unplug the power source as soon as possible. Prolonged overcharging may affect battery life.

Safety Precautions

- Avoid placing in high temperatures, humidity, areas with strong static electricity, strong magnetic fields, or using in such environments.
- Do not strike, throw, apply heavy pressure, or handle the product violently, as this may damage the internal circuit board, rendering the product unusable.
- Keep away from items that generate microwaves, such as microwave ovens.
- For your safety, keep your hands dry and do not plug or unplug the device with wet hands.
- Do not use the product if it has come into contact with water or is dirty.
- Please do not disassemble and repair by yourself.

Work Voltage	5V
Work Current	≤ 3 mA
