Usage Warning

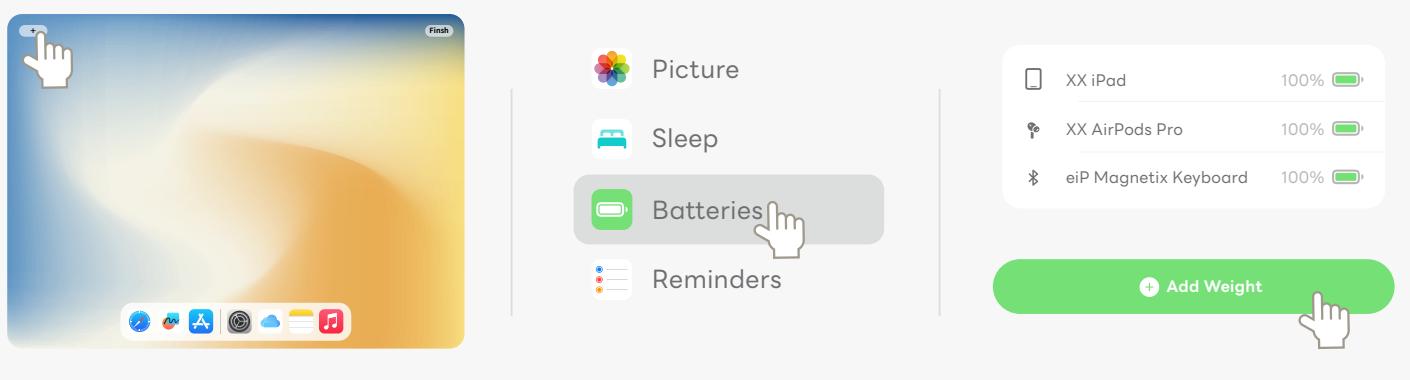

1. The keyboard charging port is TYPE-C charging port, the input of the voltage can not exceed DC-5V the keyboard will be broken if the voltage exceed the limit.
2. Connect the TYPE-C plug of the charging cable to the keyboard charging socket the other side is connected to the charger of the tablet PC or the charging interface of the tablet PC charges the keyboard.
3. Please charge it for at least 3 hours before using for the first time and then charging at least 2 hours when it is low battery in the future.
4. The green indicator light flashes: low battery, please charge it on time.
5. When charging, please check whether the charging port is powered normally.

Note : Please do not charge the keyboard for a long time. Keeping it plugged in for a long time will deplete the keyboard's battery life.

How to check battery status?

Press on the blank space until the apps are shaking, find the “+” at the left top corner.

Find “Batteries”, and Add Widget

Q : What can I do if the trackpad is a bit laggy?

A :

- Restart your iPad: Sometimes, a simple restart can resolve temporary performance issues.
- Adjust Trackpad Sensitivity: Go to Settings → General → Trackpad and experiment with different sensitivity settings. Find the sensitivity level that feels most comfortable and responsive to your touch.

Q : The LED indicator did not light up when the keyboard was turned on.

A : The keyboard battery is likely empty. Please charge the keyboard for at least 2 hours.

Q : How do I connect to the iPad?

A : Press “Fn” + “C.” You should see a flashing indicator. You can now connect the keyboard to your iPad.

Q : Pairing failed / Could not find “eiP Magnetix Keyboard” via Bluetooth.

A : Restart your iPad, turn off the keyboard, and then turn it on again. Try the pairing process again.

Q : How do I type emojis when the Globe key is turned off?

A : Press “Globe” + “E” to bring up the Emoji keyboard.
